

# KYOTO SUEHIRO

## 京都スエヒロ

# menu

At Suehiro, diners can enjoy grilling steak on a hot stone plate by themselves.

The stone plate is molten lava from

Mt. Fuji which has far-infrared ray properties and can make meat juicy and tender.

Japanese beefsteak is recommended to enjoy with

Suehiro' s special soy sauce-based sauce, served only at this branch.

Aromatic vegetable extract is blended with rich soy sauce

and adding a little mustard to it will make it even better.

This is the taste only KyotoSuehiro can offer.

It is not possible to separate accounting.
